At January 25th Meeting the Commission expressed interest in all participating in a meeting with the Department of Housing and Economic Development (Formally, Department of Community Development). It was suggested by Gina Caruso that in the interest of time, have the meeting with key leadership. This meeting has been set for February 8, 2011.

In preparation for this meeting a special meeting was called for by the Chair to collect questions and concerns to present.

- What are the responsibilities of the Commissioners?
- One fourth of the budget is going towards salary, is that typical?

Other ideas discussed:

- Alfredo suggests that rather than discussing percentages, we should look into providing more services.
- The SSA is suppose to compliment the Chamber
- There have been good ideas but no follow through, need to implement a process
